Marking out or layout means the process of transferring a design or pattern to a workpiece, as the first step in the manufacturing process. It is performed in many industries or hobbies although in the repetition industries the machine's initial setup is designed to remove the need to mark out every individual piece.'Gerard used to come and do some harvesting for me. He probably did 8-10 years for me, He used to manage a supermarket and he would take his holidays and come and work 2-3 months for me on a header.Allen Pan - Sufficiently Advanced. Allen Pan is a Maker, failed Mythbuster, and director of Hexlab Makerspace in Los Angeles, California. He's also the creator of the Youtube channel "Sufficiently Advanced", where he tests Sci-Fi and fantasy tropes and builds working replicas of fictional weapons and gadgetry.A mortise lock (mortice lock in British English) is a lock that requires a pocket—the mortise—to be cut into the door or piece of furniture into which the lock is to be fitted., Carpentry Joinery Knowledge Peter Brett.
