

Download Patents And Innovation In Mainland China And Hong Kong

The study uses Singapore and Hong Kong as two cases to compare the role of government and innovation. Singapore and Hong Kong are often compared with each other due to their similarities in history, size, population, the lack of natural resources, as well as their economic performance and competitiveness (Young, 1992). Shenzhen ACT Industrial Co., Ltd, established in 1999, is a high-tech company that integrates research and development, manufacturing and marketing of electronic series products. Jiangmen Shenbao Metal Products Co., Ltd is an enterprise specialized in research, design and manufacturing electric kettles, including stainless steel kettles, plastic kettles, ceramic kettles, tea pot set, coffee makers and other personalized stainless steel products. Margaret March 4, 2017 8:27 am. I work in Hong Kong and the US. I see a lot of innovation from mainland Chinese inventors, pretty cutting edge stuff- nanomaterials, 5G, etc. Hong Kong provides ..., Patents And Innovation In Mainland China And Hong Kong.
